Yung Mal

I just pulled up in the foreign, shit don't even play the radio  
Bad bitch with me, she know I don't play the radio  
Get the bag and count it up, then we split it like pistachios  
I'ma thumb through the shit and spend it, then I'ma go make some more  
Money look like Aquafina, we don't do subpoenas  
Your ho called, she said she wanna suck my penis  
I get high like Venus  
The model way, I'm headed straight to Neimans  
Ship that shit, the VVS's on my neck it came from Fiji  
Wet just like Pacific  
We don't beef we just gon' push up with extensions

We got racks and we ain't never going back  
That's all you need to know  
Safe deposit box, I dig a hole  
In my shoebox where them racks gon' go  
I do a show, we get the backend  
Split it up just like pistachios  
Now that I'm rich them haters falling back to back  
Just like some dominos  
I just pulled up in a foreign, shit don't even play the radio  
Got my shooters with me, no radio, they just spaghetti-o  
Bitch I thumb through these racks, I thumb through it  
Then I make some more  
I got VVS's on my neck and Aquafina, bitch you know it
