

DEVILS WAY

Yung Pinch

Ima tell you one last time
It's your girl not mine
You could have her it's okay

All night she's been on your mind
Staying out getting high
While your lying at your place
If she takes one more line
Then she'll be fine
With a smile on her face
Dear Jesus help us for heaven's sake
Ima believer fell for the devils ways
It's a world full of sinners laying in bed awake
Dealing with demons they come in whatever shape

I stay by the beach
Cause this worlds so cold
I got all need
And I keep that close
All she want is me
You already know
She belong to the streets
They done got her soul
Dear Jesus help her for heavens sake
She needs ya like I needa a fucking break
This lifestyle keeps on controlling me
Can't see the toll it takes
Lord please keep the homies safe
We ain't gone sleep till the sunrise
Party till we all see daylight
I'm drinking too much on the weekends
Catch me as I fall into the deep end

All night she's been on your mind
Staying out getting high
While your lying at your place
If she takes one more line
Then she'll be fine
With a smile on her face
Dear Jesus help us for heaven's sake
Ima believer fell for the devils ways
It's a world full of sinners laying in bed awake
Dealing with demons they come in whatever shape

Ya they come in whatever shapes
I can't deal with all mine I had to delegate
Tried to keep em all inside to be your saving grace
But I broke a promise I said never break
Sold out on the road I had to celebrate
Burning thru the money like it's cellophane
The fire rising higher than I ever seen
Find me a supplier we need everything
I got Money in the dryer cause I washed my jeans
Ima fly clothes buyer with low self esteem
Bitch I'm high profile
Yo can bite my style still can't fuck with me
