

Sober

Yung Pinch

She never hit me up when she sober
She only come around when she on one
Always faded, I'm addicted to them Backwoods
I'd do anything to feel alive
She only hit me up when it's over
She only want my love when it's all gone
I got feelings that you did this to the last one
But I'm too high to even mind
I'd do anything to feel alive (Oh yeah, oh yeah, oh)

Feel alive, feel alive, let me feel alive
Feel alive, feel alive, let me feel alive
Please just let me feel alive, let me feel alive
Please just let me feel alive, let me feel alive

Just let me feel alive
Some things do not change
Like you and all the reasons we do not hang
Shawty wanna go and be a model, ride the pop train
First class flights from Miami in the John Wayne
Remember you first met me, said I talk strange
Now you talk just like me, isn't that strange? Well
Everybody talkin', say they got game
Please don't make me have to hit you with the hot flame

Yeah, I'm off it, I cut the ties
Exhausted from all the lies
You say you didn't love me then but
I'll always be on your mind

She never hit me up when she sober (Sober)
She only come around when she on one (It's over)
Always faded, I'm addicted to them Backwoods (Oh, oh, oh)
I'd do anything to feel alive
She only hit me up when it's over (It's over)
She only want my love when it's all gone (I thought I told you)
I got feelings that you did this to the last one (Last one)
But I'm too high to even mind
I'd do anything to feel alive

Please just let me feel alive, let me feel alive
I'd do anything to feel alive (Oh yeah, oh yeah, oh)
Please just let me feel alive, let me feel alive
Ooh yeah, hey

Please just stop right now 'cause you got me
I got way too turnt at the party
Let's just go somewhere, this is boring
We can find our way back home in the morning
Can't keep up so you lost me
Please don't talk about how much this cost me
It's always the same old stories
Save it for the next guy or the one before me

Yeah, I'm off it, I cut the ties
Exhausted from all the lies
You say you didn't love me then but

I'll always be on your mind

She never hit me up when she sober (Sober)
She only come around when she on one
Always faded, I'm addicted to them Backwoods
I'd do anything to feel alive
She only hit me up when it's over (Yeah, it's over)
She only want my love when it's all gone (I thought I told you)
I got feelings that you did this to the last one
But I'm too high to even mind
I'd do anything to feel alive

"Um, hello, did you forget something?
I don't know where you went after the barbecue
But if you're with some girl, I'm gonna fuckin' kill you
And don't even bother coming to dinner with my parents
You're always late anyways..."
