

## Die For A Night

YUNGBLUD

Pain is a language I can read  
So I'd rather remain illiterate tonight so I can sleep  
I know it'll come out eventually  
Can you show signs of weakness asymptotomatically?  
All I want is a cigarette  
Until I realize I've got none left

I always wonder  
What it would be like  
If I could die for a night  
Would anyone mind it? Would everyone like it?  
If I could die for a night

I don't know what I'm talking about  
I don't know what I'm talking about  
I don't know what I'm talking about

I don't know what I'm talking about  
I don't know what I'm talking about  
I don't know what I'm talking about

Fuck
