Yungeen Ace

I don't know why  
All this pain I've been feeling  
Cause mmmmm  
I don't know why  
All this pain I've been feeling  
It never started to heal  
I said - I don't know why  
All this pain I've been feeling  
It never started to heal

When I be sober I can't think man I just ain't myself  
Can't be in love it make me hate myself  
Tryna make shit go right but it always find a way to go left  
My head hurting too much hold my belt  
Missing ej on the daily thinking how it shoulda be if you was here  
Can't feel for my squad cause they was there  
Just wanna tell you I love you and them seekers Be cap  
They ain't know me It's the way I felt  
Nigga they ain't give a shit we Had to Go get it the hard way  
Breaking in them cribs niggas was playing in them hard way  
We was outside niggas was hiding talking everyday  
I ain't know it was smoke until big bro died that shit hella fake  
Motivate my niggas to get paper and stay out the way  
Don't fuck with those bitches who play both side fuck em get out the way  
Just run up your digits all that other shit it got time to wait  
Be up in that sky today  
Never throw your grind away

I don't know why  
All this pain I've been feeling  
It never started to heal  
I said I don't know why  
All this pain I've been feeling  
It never started to heal

Ion know why but I ask god on the daily -god  
Why you put me through all this madness  
I ain't gone lie this shit here made me  
My mind Tripping I'm going crazy  
Body full of meds  
I'm a pshyc patient  
I ain't know my daddy  
So the streets raised me  
Told them big Glock with no saftey  
I was on the block with the drug dealers  
In the cut with them main killers  
Nigga mad I'll send em blicks  
And I'll send em with one of my main hitters  
Spin the block with my same nigga  
Fuck the fame I ain't change nigga  
Ace a lonely child  
No body was walking through the rain with him  
Bag on my head against a couple niggas  
They wanted me a dead man  
I sent them fuck em on his trail  
Left a couple dead man  
My blick I'm clutching I open fire

Left em on the pavement  
If he play then he gone die if you hear in what I'm saying  
I - I  
I be having conversations with the devil  
I -I  
I don't know if my days gone get better  
But why -why  
Walking alone through the weather  
My annoyance when I step em I step em  
Harder than whoever

I don't know why  
All this pain I've been feeling  
It never started to heal  
I said - I don't know why  
All this pain I've been feeling  
It never started to heal
