Yungeen Ace

I been searching for a while
Been tryna go and find out who I am
I been tryna prove them wrong
All them voices inside my head that's sayin' I can't
All this shit just make me wonder (All this shit just make me wonder)
Hidin' under my bed when I hear the thunder (Hidin' under my bed when I hear the thunder)
I ain't tryna settle, I'm tryna conquer (Ain't tryna settle, I'm tryna conquer)
Remindin' myself that they don't want you (Remindin' myself that they don't want you)

I just feel my heart keep on burning, I know (I know, I know)
I just feel my heart keep on burning, I know (I know, know, know)

Is it my fault that they don't feel me? Huh (Is it my fault that they don't feel me?)
Wonderin' what life is after they kill me (Wonderin' what life would be)
Not everybody just can deal with me (Everybody ain't can deal with me)
And when I'm gone, do you be missin' me? (Do you be missin' me?)
When they say they here, they leave me abandoned (Leave me abandoned)
They ain't answer my phone, now I'm stranded (Now I'm stranded, I see it)
How you gon' help me when I'm helpless? (How you gon' help me when I'm helpless?)
Pour out my pain and they selfish (Pour out my pain and they selfish)
Why I bought this Bentley when I don't drive it? (Why I bought this Bentley when I don't drive it?)
Why I bought this watch when this shit timeless? (Why I bought this watch when this shit timeless?)
I thought I was gone, but then they found me (I thought I was gone, but then they found me)
I gave them my (Shh), don't remind me (Don't remind me)

I been searching for a while
Been tryna go and find out who I am
I been tryna prove them wrong
All them voices inside my head that's sayin' I can't
All this shit just make me wonder (All this shit just make me wonder)
