

I Remember

Yungeen Ace

Damn, I'm just sittin' and this shit is like, damn
I know I'm great, know what I'm sayin'?
Even when they doubt me, I know I'm the greatest
(Ayy, Kolvi, you goin' too crazy)
I know I'm the greatest (Alex Made This Beat)

Went and chased what I was missin', I was losin' out (I was losin' out)
In the beginnin', I ain't see the difference, but now I see it now (Now I see it)
Why they told me I went golden when I'm chosen? (When I'm chosen)
Why nobody wasn't there to hold me when I was lonely? (When I was lonely)
That's a successful passion (Passion)
When I was down, they were laughin' (They were laughin')
Look how many times I went gold (Look)
I did it all on my own (My own)
My story, I'm tellin', I see platinum comin' (I see platinum comin')
My goals say I see diamond comin' (I see diamond comin')

Ayy, remember them night when them lights was off
With thirst in the house and the water off
I'm on the block tryna feed the family
I don't expect y'all to understand me
I know how it feel to sleep on the floor
I know how it feel to have nowhere to go
I know the feelin' of feelin' low
When the food run out, I was stealin' out the store (Stealin' out the store)
My house was just like the trap
Thank God, He blessed me with rap (With rap)
Life way bigger than I thought it was
Tell me what niggas shine harder than us (Harder than us)
I really miss my tour, my dog, I wanna be bigger or big as me
I wanna be on the news, I wanna be gettin' a Grammy if you see me on the TV
I don't wanna go through that storm again
I don't wanna lose no more of my friends
Baby, don't tell me it's over again
All this pain, I just want it to end (I want it to end)
I'm up all night and I'm countin' these M's
Became best friends with Benjamin
I was outside in the middle of the night
I froze my dime, put blood on ice
I seen him at the BET Awards, I'm locked in at the studio (I did)
I can see they all judgin' me when I'm tryna be a better me (Tryin')
I'm locked in and I'm focused (Focused)
Headed to the top, gettin' closer and closer
Hidin' my soul, gettin' colder and colder
Tell me you love me, I just need some closure (I need)

Went and chased what I was missin', I was losin' out (I was losin' out)
In the beginnin', I ain't see the difference, but now I see it now (Now I see it now)
Why they told me I went golden when I'm chosen? (Why they told me that?)
Why nobody wasn't there to hold me when I was lonely? (When I was lonely)
That's a successful passion (Passion)
When I was down, they were laughin' (They were laughin')
Look how many times I went gold (Look)
I did it all on my own (My own)
My story, I'm tellin', I see platinum comin' (My story, I'm tellin', I see p

latinum comin')

My goals say I see diamond comin' (My goals say I see diamond comin')

Uh, uh, uh, uh-uh

Uh, uh, uh

Hoes that did me wrong

My dogs who did me wrong

But who did me wrong?

Time up, oh, yeah, yeah, yeah
