Remember them nights  
They was cold like  
December  
All them nights  
I remember  
I was lost in the Jungle  
I was like Simba  
Labeled me a gang member  
Ducking my street ways  
Lost 3 in the same day  
Can't tell me about pain  
I was taught from  
The block  
You was taught  
By your teacher  
You had a pencil  
And a ruler  
I was putting extensions  
In a Nina  
I was grinding hard  
Most of them nights  
I ain't sleep  
There was no food  
Up in the house  
I had to make a  
Way to eat  
There was no lights on  
We couldn't take  
A shower, wasn't no water  
He wore a wire  
Up in the cell  
Told it all on  
The recording

He was mad at himself  
But took it out on the lawyer  
Ain't interested  
In no bitch unless she's the plug's daughter  
Got it all for  
The low  
Ran it up for my bro  
All this shit done  
Paid off and it's all finna show

And we lost a couple members  
He used a be hooper now he carry  
A gun he out with them killers  
And we don't play safe when it's
