

Step Harder

Yungeen Ace

He said when he catch me he gonna shake somethin
But when ATK spin it's a murder one
We got drako's we tommy guns
I'm ten toes down I won't ever run
But them niggas pussy as a bitch I told them niggas step harder
Up the price on my head I told them bitch step harder
Seen your bitch try to set me up you better step harder
Riding round in an Uber Bitch you better move smarter
Swinging around in that jungle I be out there head first
Hit him 4 times in the chest make the nigga head burst
Jacksonville police trying to lock me up before I set up my verse
I don't give a fuck bitch I'm gonna stunt I'm gonna kill that bitch first

Kids will be mad when they ain't always
You claim you on a block that's not you
I was mad when he died that's not you
Remember when I got shot like that was you
Boy you pussy as a bitch you shot who
I'm still undefeated I can't lose
Since you want to be famous put his ass in the news
I'm hang him to worldstar with the tool
Step on the flag I let him have it
Speak on my name you can die too
When the AR bullet starts flying he froze up he ain't know what to do
So when that bitch die he die confused
I follow them codes cause I know what to do
I told my piece he still going to school they have some killas outside

He said when he catch me he gonna shake somethin
But when ATK spin it's a murder one
We got drako's we tommy guns
I'm ten toes down I won't ever run
But them niggas pussy as a bitch I told them niggas step harder
Up the price on my head I told them bitch step harder
Seen your bitch try to set me up you better step harder
Riding round in an Uber Bitch you better move smarter

Jacksonville police trying to lock me up before I set up my verse
I don't give a fuck bitch I'm gonna stunt I'm gonna kill that bitch first

When that pressure applied you ain't never outside
You talking that shit like you ready to die
Got stippers on go when I tell them to slide
They feel like calling you dyke when you hide
Don't come around me if you ain't ready to die
One in the head right now it can go down
Some niggas outside of your car right now
Even for my chain I'll shut this shit down
Tony Montana I'm ready for war
Stepped on that boy you can't tell what I saw
You can run but you can't run far
Murder one it's the same rod
Different body you can't tell apart
Bitch the glock we gonna hit em hard
You think I'm a bitch I'm gonna shoot him in his shit
My hands play defense and they love the licks

He said when he catch me he gonna shake somethin
But when ATK spin it's a murder one
We got drako's we tommy guns
I'm ten toes down I won't ever run
But them niggas pussy as a bitch I told them niggas step harder
