

# Wish I Knew

Yungeen Ace

Yeah, and I'ma coin my way to Pittsburgh  
I just went to my first hockey game, it's 2:39  
Daydream made it, so it's major, huh

For all the niggas that done crossed me, I wish I knew  
For all the bitch that broke my heart, forever fuck y'all too  
God sent me signs, I ignored them and I went straight through (I ignored the m)

This is your ain't do for me, I did it for you  
I been on the road for so long, been fightin' for so long  
But I cannot hold on to you (I cannot hold on to you)  
Had to stop answerin' my phone, got problems on my own  
And I cannot take care of you (I cannot take care of you)  
I've been on the road for so long, been fightin' for so long  
But I cannot hold on to you (I cannot hold on to you)  
Had to stop answerin' my phone, got problems on my own  
And I cannot take care of you (I cannot take care of you)

For the first time ever, I'm on the road, spendin' time with my pops  
Lettin' him see this shit firsthand, that his child is a star  
We been travelin' city to city (Look), and it's just the beginnin' (Come on)  
And I ain't even close to where I'm goin' (Yeah)  
I wish I knew, that old boy was gon' sneak me  
I wish I knew, I was gon' lose all the shit that I was facin'  
I wish that I knew, to pass my heart out for my safety  
I wish that I knew, I wish that I knew  
All these battles I been through, really down the shit that I done  
Believed a lie that I was [?], chasin' that gap, they pray I fumble  
I wish that I knew, when they see you happy, they bring you their problems (Oh)  
I wish that I knew, the ones who come up from the bottom  
Envyin' you, can't tell your dog when he wrong  
And feelin' see through, when you open up and tell you loved her  
She take advantage of you (Take advantage of you)  
That's why I'm so closed in a world so cruel to you  
I'm probably better off without you

For all the niggas that done crossed me, I wish I knew (I wished I knew)  
For all the bitch that broke my heart, forever fuck y'all too (Forever fuck y'all too)  
God sent me signs, I ignored them and I went straight through (I ignored the m)

This is your ain't do for me, I did it for you

But I cannot hold on to you (I cannot hold on to you)

My mama cried to me, told me don't trust none of these niggas  
I threw that iron in the sea, I put that fff on them niggas  
Even Ray Charles could see, what I was destined to be  
I control my destiny, I control, I control  
I wish that I knew, I'd get back up when I fail

I wish that I knew, if I was goin' to heaven or hell  
I wish that I knew, that my story would sell  
I wish that I knew, I wish that I knew
