

Wishing Death on Me

Yungeen Ace

They all wishing death on me

They all wishing death on me (death on me)
Remember the night the devil crept on me (dang)
He told me not to tell y'all what he telling me (shhh)
Feeling on ten I won't let a nigga kill me (buh)
I won't ever fake my actions for nobody this the real me

I been judge off by caucasians
Blocked with a green laser
We was just laughing and talking then my dogs died an hour later
Everything come to an end but I won't let a nigga erase him
When a nigga up in a drought I start to lose a lot of patience (hold up)
Back and forth pacing I'm trying to find a way to maneuver
Broad day shoot out lil baby died riding on a scooter (buh buh buh buh)
Can't let this fame take over my name
I really came from bursting brains (bang)
Now my soldiers up the road who locked up in the chain gang (free all of 'em
)
I'm really switching lanes I'm trying to find a way to make it out (make it
out)
If shit ain't 'bout no money what the fuck we got to talk about
But I hate falling in love 'cause everybody soon be walking out (walking out
)
Let me down
Ain't a OG never ever settle down
I been really on my own I been really tryna get it
I be headfirst by niggas I'm just way too committed
Heard through the grapevine I need niggas snitchin' I can't get enough for i
t
I know what come with the streets so I'm prepared to do the time for it

They all wishing death on me (death on me)
Remember the night the devil crept on me (the devil crept on me)

Remember that night late night it was 4: 00 o'clock up in the morning
Came in wiping off my dirt a pistol stepping on my opponent
Chose steady rolling by I'm paranoid that they on me
I had just packed my bag I'm finna leave right in the morning
Seem like they beat me to the punch they started flexing in different ways
I looked my mommy in the eyes told her this my last day
But let me get out that subject 'cause I won't go in way too deep
But one thing I know is been talked about up in the streets
I'm way too deep in, no lawyer to de-fend
Loud shots up on the block with the chopper like I'm a Chinese man
G-Unit many man, I'm murder by many man
I'm cool as a ceiling fan but I felt like a madman
Come on let's talk business let's talk lil' politics
I became the boss man so all the money I want all of it

They all said I'm nonchalant the bravest one out the bunch
I ain't going for no fuck shit don't try me I am not the one

They all wishing death on me (they all wishing death on me)
Remember the night the devil crept on me
He told me not to tell y'all what he telling (shhh)
Feeling on ten I won't let a nigga kill me
I won't ever fake my actions for nobody this the real me (this the real me)
