I pull up in the passenger side
On my best friends' ride
But I am no scrubs so they be left them eyez
I had to check them fives
Your perfection size
I want to get inside your Calvins and let them slide
Baby swing my way
Everyday's Friday
We eat, I pay
We can do night-day
We can get a pack and you can smoke on the highway
You went from bestie to my bae
Missin' a sum but you're freaky
I'm behind closed doors you never leave me
And I got a Merc' you got a Tete
And you're always away when you see me, fleeky
Started with texting now you're in my bedroom protected
You're the baddest one out of Holly, I've collected (you're the baddest)
And you ain't worry about the girls that I've slept with there's no buttons
to push now and I fold Aces

You wanna get into me
I can see it in your eyes
So why you playin' innocent?
If you're this close (to me, girl)
Yeah I like it like that, yeah I like it girl I like it like that (to me, girl)
All this body contact, yeah I like it girl I like it like that

I pull up in that driver seat in that Mercedes G
Yeah your hair on fleek and your body, petite
It took about 7 days so how your body all weak
Yeah you could do it sexy or straight
How'd you know that I like that
We can go Valencia and you could throw it right back
I used to be a dog but you know how to bite back
You're the best of both worlds and you don't have to hide that
Yeah, your body's got me sidetracked

Ay you know Yungen she wants your company (ok)
And she be thinking about you constantly
I got a Rover thinking she's on the sofa drinking she ain't really here to open link in
I know that you don't do this normally
But this girl got a different energy
Bro Imma take your word for that so we can take that swerve and back

You wanna get into me
I can see it in your eyes
So why you playin' innocent?
If you're this close (to me, girl)
