

Everytime

YUQI

When you're with me there, I'm not depressed
So, don't worry about it, I'm nothing different like them
You called me there, "How was the way?"
That I kept telling myself, "We still have a long day"

Just stop and think about it
No, we shouldn't be afraid
Even if it fail today
But it doesn't mean a thing

I said, "I, ooh, I never cry" (Never cry)
"Ooh, I see the light" (See the light)
"There's trouble in our life
But sometimes we have to fight
So go on and take a breath" (Take a breath)

Nothing's gonna stop us, we will be forever
Our story's never ending, oh, for sure
Nothing's gonna change us, we will be forever
Our faith will not be forgotten for sure

Just stop and think about it
No, we shouldn't be afraid
Even if it fail today
But it doesn't mean a thing

I said, "I, ooh, I never cry" (Never cry)
"Ooh, I see the light" (See the light)
"There's trouble in our life
But sometimes we have to fight
So go on and take a breath" (Take a breath)

Going through a lot, but we still stand strong
The sound of your voice still leads me along

Even we fail today, it doesn't mean a thing
Let them talk 'bout me or everybody
'Cause they'll feel ashamed
I won't let you down

I said, "I, ooh, I never cry" (Never cry)
"Ooh, I see the light" (See the light)
"There's trouble in our life
But sometimes we have to fight
So go on and take a breath" (Take a breath)

Going through a lot, but we still stand strong
The sound of your voice still leads me along
