

# Off The Mask

YUTA

Tonight I'll show you my other side  
Hear it all from the dark

Tokihakita  
Hirake rareta Pandora  
Zetsubō to kibō no taste  
Why are you so serious?  
Don't be afraid of darkness  
Yatte mite goran right now  
There is nothing to be afraid of  
This will be the story you began, is it not?

Something is inside me screaming now (Come on)  
I gotta call this demon out (Yeah)  
I don't care it's right or wrong (Ready)  
Nugisutero right now (Let's go)

Tonight I'll show you my other side  
Hear it all from the dark  
Tonight I'm leaving the world behind  
Hear it all from the dark

Subete o nugisutete  
Umarekaware tonight  
Dare ni nani mo iwa senai  
'Cause this is who I am off the mask

Scream out  
I feel freakin' good  
This is how I am  
(Ha-ha) Everybody take off your mask, one, two

Tonight I'll show you my other side  
Hear it all from the dark  
Tonight I'm leaving the world behind  
Hear it all (I wanna go, go, go) from the dark

Tonight I'll show you my other side  
Hear it all from the dark
