

# Don't Turn Back

Yves Larock

Don't turn back until you see the light  
Until you reach the sky  
To be proud of your life

Don't turn back until you see the light  
Until you reach the sky  
To be proud of your life

And run and when the trouble comes  
Find it before you're done  
It's just a question of freedom  
And wake up, wake up  
If life is a venom  
I say stand up, stand up  
Got to find your own serum  
Hang up, hang up  
Wish for a better solution  
Go to find it

Don't turn back until you see the light  
Until you reach the sky  
To be proud of your life

Don't turn back until you see the light  
Until you reach the sky  
To be proud of your life

Don't turn back  
And if you fall down  
Take a second and leave the ground  
And be strong  
You've got no bounds  
What goes around, comes around

Don't turn back until you see the light  
Until you reach the sky  
To be proud of your life

Don't turn back until you see the light  
Until you reach the sky  
To be proud of your life
