

# Say yeah

Yves Larock

Run

Every day, every time you got to run  
Too much fuss, to much stress, where is the fun?  
We want peace and unity so put down your gun  
So many cloudy days we need more sun  
A brighter day  
The Sadness and sorrow, you got to let them go

When people say (No no no)  
I really want to say (Yeah yeah yeah)  
When you feel lone (lone lone lone)  
Wait for a better day (Day day day)

No no no  
Yeah yeah yeah  
Low low low

Run life is short my friend so why we run  
If you hurry to much there is no fun  
Stop the violence people put down your gun  
If your face is shining like the sun  
A better day  
The sadness and sorrow you got to let them go

When people say (No no no)  
I really want to say (Yeah yeah yeah)  
When you feel lone (lone lone lone)  
Wait for a better day (Day day day)

no no no  
yeah yea yea  
low low low

If you're feeling lone  
Or people tell you no no no  
Don't be afraid to show  
and sing with  
me just wow-wow-wo

When people say (No no no)  
I really want to say (Yeah yeah yeah)  
When you feel lone (Lone lone lone)  
Wait for a better day (Day day day)

When people say (No no no)  
I really want to say (Yeah yeah yeah)  
When you feel lone (Lone lone lone)  
Wait for a brighter day (Day day day)

no no no  
yeah yea yea  
day day day
