

Fear Evil Like Fire

Yves Tumor

What do you say to her
Can you offer she?
Lover or enemy
It's so unsettling
To hear your name in vain
They say it'd grow on me

What do you say to her
Can you offer she?
Lover or enemy
It's so unsettling
To hear your name in vain
They say it'd grow on me

The boy you are today
Ain't from a lack of pain
Became your own enemy
Look at the mess you made
It's such a tired game
"Nothing feels new to me," he said

I'll wait, so we can parlay
We watch the city vibrate
We can do it your way, oh yeah
Heaven is a place that we all have
Watch the city vibrate
Can't tell the differences
Oh yeah, oh yeah

The boy you are today
Ain't from a lack of pain
Became your own enemy
Look at the mess you made
It's such a tired game
"Nothing feels new to me," he said

I'll wait, so we can parlay
We watch the city vibrate
We can do it your way, oh yeah
Heaven is a place that we all have
Watch the city vibrate
Can't tell the differences
Oh yeah, oh yeah

I'll wait, so we can parlay
We watch the city vibrate
We can do it your way, oh yeah
Heaven is a place that we all have
Watch the city vibrate
Can't tell the differences
Oh yeah, oh yeah
