

# Kerosene!

Yves Tumor

I can be anything  
Tell me what you need  
I can be your baby in real life, sugar  
I can live in your dreams  
I can be where you need me to, baby  
I can do anything  
I can be what you tell me to be  
I can be what you need  
I can be your real life sugar  
I can live in your dreams  
Will you be my fantasy, little baby?  
You're just what I need  
Can you be my fantasy, little baby?  
You're just what I need  
I can be what you need, little baby  
Just tell me what you need

I ain't like them other girls  
Look me in the eye, tell me I'm the one  
And I'll be your only boy  
Oh, I can be your only girl, little baby  
I can be anything you need  
I need kerosene!  
I need kerosene!  
I need kerosene!

I can be  
I can be what you need  
I can be your ev...  
Oh, I, I, I  
Oh, I can be what you need, oh, baby

I can be anything (Oh, I can be, oh, I can be)  
Tell me what you need (Oh, I can be, so, tell me)  
I can be your baby in real life, sugar (So, tell me)  
I can live in your dream (So, tell me, I)  
I can be where you need me to, baby (I can be, I)  
I can be anything (I, I)  
I can be what you tell me to, baby (What you tell me)  
I can be what you need (You're just what I need)  
I need kerosene!  
I can live in your dream  
Will you be my fantasy, little baby?  
You're just what I need  
Can you be my fantasy, little baby? (Oh, I can be)  
You're just what I need (Oh, I can be)  
I can be what you need, little baby (Oh, I can be)  
Just tell me what you mean

I ain't like them other girls  
Look me in the eye, tell me I'm the one  
And I'll be your only boy  
Oh, I can be your only girl, little baby  
I can be everything you need  
I need kerosene!

Ooh, I can be what you need

I can, oh, I can, oh, I can, oh, I can, oh, I
