Fading these figures I'm instrumental
Waiting for something to implement if I'm not supposed to be here then I'm wasted at 32
And I couldn't even prepare for the loss what could I do but cry?
Tried to figure it out processes way too long and I'm running out of time and I'm smoking one for my boy and I-

Kept you waiting
I graduated
Up out my feelings
I'm glad you made it
You saw I can do it
So you've been waiting
I'm glad you made it
So glad you made it
Kept you waiting
I graduated
About my feelings
I'm glad you made it
You saw I can do it
So you've been waiting
I'm glad you made it
So glad you made it

Have you ever lost somebody?
Felt so helpless?
Have you ever been so empty?
Have you ever run away?
Have you ever acted selfish?
Had to look the other way
I've never seen you act this headless
Have you ever missed some things?
So close but can't explain it?
Had to look the other way
I've never seen you act this headless

Kept you waiting
I graduated
About my feelings
You saw I can do it
So you've been waiting
I'm glad you made it
So glad you made it
Kept you waiting
I graduated
About my feelings
I'm glad you made it
You're so shit together
So you've been waiting
I'm glad you made it
So glad you made it

The sun comes in my heart fulfils within
The sun comes in my heart fulfils within
