

BIRD

Yves

You told me I was wrong and now you're gone, still I'm okay
You left without a trace but won't be lost in hollow space
You loved me, I was breaking down and couldn't love myself
You vanished in the dark, but I'll be fine without your hand

No blame (No blame), no ties (No ties)
Now I'm on my way
No scars (No scars), no shame (No shame)
No chains, here I am

Stay alive, stay alive
I'll burn so bright tonight
Say loud, say loud
I'll shout through the night
Go hard, go hard
I'll break out and fly
Stay alive, stay alive
I'll burn so bright tonight
Say loud, say loud
I'll shout through the night
Go hard, go hard
I'll break out and fly

I shine in the night sky
Get high in the moonlight
I fly through the midnight
I soar beyond the skyline
I dance with the starlight
Find myself in the twilight
Chase the stars, I'm alive
Time moves on, but I still strive

No blame (No blame), no ties (No ties)
Now I'm on my way
No scars (No scars), no shame (No shame)
No chains, here I am

Stay alive, stay alive
I'll burn so bright tonight
Say loud, say loud
I'll shout through the night
Go hard, go hard
I'll break out and fly
Stay alive, stay alive
I'll burn so bright tonight
Say loud, say loud
I'll shout through the night
Go hard, go hard
I'll break out and fly
