

# DIORAMA

Yves

I'm just to dream in, chase my drama, it's my second day  
I don't wanna free you, no, I just wanna feel you, babe  
Try to fit in, change my drama, it's my second day  
I don't wanna free you, no, I just wanna feel you, babe

From day one, best timing felt just right, you were in my sight  
In dreams, the shining lights, I knew you were my night's bright  
t guide  
Every setting is just right, boy, you're nowhere in my sight  
I don't know, should I stay or ride?  
Others come together

Don't wanna free you when I wake up

I'm just to dream in, chase my drama, it's my second day  
I don't wanna free you, no, I just wanna feel you, babe  
Try to fit in, change my drama, it's my second day  
I don't wanna free you, no, I just wanna feel you, babe

First time in this ride at the bottom of the night  
Hurry, find me, baby  
The clock is talking side by side  
Please just dive into me, make me see you coming, take a deep b  
reath  
'Cause can't nobody party like me, the time will fly

Maybe I can get lost in you  
Just tell me how to think, babe, yeah  
The thought and the scent, yeah  
This scene and my vision, baby  
All the set can be good, babe, yeah, yeah  
Let me know how to set same  
Just give me the good love  
Or get me the good luck

I'm just to dream in, chase my drama, it's my second day  
I don't wanna free you, no, I just wanna feel you, babe  
Try to fit in, change my drama, it's my second day  
I don't wanna free you, no, I just wanna feel you, babe
