Let's get dumb and break shit

I just need some space
I just need some space, space, space
Voices in my head
I just need some space, space, space

Complicated
I'm losing control, oh, I feel the same way
I know who I am
Oh please, just stop it
It's burning my brain
You melting my chain

Got it, you find it
I never let it down
Break it, just take it
Unless you fight, it's up to you

Gamdangmothae i segyeui na
Deomdeomhan cheok haneun ne nunbit sok
Muneojyeobeorin nae mudae dwit pyeoneseo
Mugamgakaevin nareul barabwa

I just need some space
I just need some space, space, space
Voices in my head
I just need some space, space, space

Oh, I'm not that crazy
Push it hard, let me be me
You know I fly high, just feel it
I'ma go far, just give me a minute
Let me go, let me go
I'm ready, that's for sure
I won't look back, take it, my pack
I'll dance again, dance again, hey

Got it, you find it
I never let it down
Break it, just take it
Unless you fight, it's up to you
