

White cat

Yves

Can't reach me yet
Another type, babe
Please, outta way
Too bright, can't be a bad kind
Don't you know?
Gritty treats, dirty streets won't belong, yeah

Scrolling down, wearing tight
Pixelated town, fake them out
Let the light be on back, need a break
I hate to spoil you, but that's just living life
Can't say "I love you" if I left hurt, that's right?

I got body made of fur
Can't be better than tonight
Can't be better than tonight
Can't be better than tonight
Let nobody in this world
Can't be better than tonight
Can't be better than tonight
Can't be better than tonight

Can I undo?
Fade into grey
Drift far away, yeah
If I was you?
Born to decay
What's there to say?
False holiday

I wouldn't knock it
I'd rather see you knock it hard
Unlocking rocket
I've wanted you to free me tonight anyway
I can come home right
Hypnosis my mind till it's fine
Don't you dare me, I was right

Scrolling down, out of line
I won't stick around
Take me now, what's the prize
I've been out here all day
Got spoiled casually
Said it once unexpectedly
Guess I played the game too wrong, honestly

I got body made of fur
Can't be better than tonight
Can't be better than tonight
Can't be better than tonight
Let nobody in this world
Can't be better than tonight
Can't be better than tonight
Can't be better than tonight

Can I undo?
Fade into grey

Drift far away, yeah
If I was you?
Born to decay
What's there to say?

If I was lost here, would it be better?
If I just can't go back that day
I'm hoping hopes for another chance to be coming back
I'm hoping hopes for another chance to stay or run away

I got body made of fur
Can't be better than tonight
Can't be better than tonight
Can't be better than tonight
Let nobody in this world
Can't be better than tonight
Can't be better than tonight
Can't be better than tonight

Can I undo?
Fade into grey
Drift far away, yeah
If I was you?
Born to decay
What's there to say?
False holiday
