## Love Me

## **Yvonne Elliman**

Love me Just a little bit longer Love me I remember times my love When we really had it all You were always there to make me smile To help me when I fall Ooo, I can't believe you're leaving me When there's so much more to say I can't let you go Ooo, every time I look at you, I still can feel the glow Let it be, let it grow Ooo, love me, please Just a little bit longer Together, we can make it Our love is much too young to break it Oh all I ever wanted was To have you to myself Then I see you standing there In the arms of someone else Ooo, you know a girl can stand so much And it's more than I can fake I can't let you go Ooo, every time I look at you I still can feel the glow Let it be, let it grow Love me, please Just a little bit harder Never even tried to see things my way It's hard on a woman When love ain't no love at all And when you walk away From me baby you're gonna be sorry I'm begging you please Love me, please love me, love me Just a little bit longer Together we can make it Our love is much too young to break it Love me, please just a little bit harder Just a little bit harder (just a little bit harder)

Just a little bit harder (just a little bit harde Together we can make it Our love is much too young to break it Love me, please just a little bit longer
