But I'm talking to you though
But I'm talking to you though
Yeah

You know these things take time
Plus you know what I'm like
So don't you try to push me far then push me further
But I'm cool outside
We're trying for trying
A thousand times, I told a thousand lies
A thousand women in my bed and it worth the lie
Yeah

When you left me where it's cold
But mean your words and I'll come home
Don't you say things to say things
You know that isn't how we grow old
We're living fast this love in slow mo'
I'll take the lead this time just hold on
Don't you say things to say things
You know that isn't how we grow old, yeah

Ah-ah-ah-ah I-I-I, yeah
(But I'm talking to you though)
Ah-ah-ah-ah I-I-I, yeah

She told me get on your bike
Now she's on top and she ri-i-ides (ri-i-ides)
I should've seen all the signs, it was all in your eyes
I tell it all, I tell it all but put the truth beside
You gotta stay in my life, come and meet me outside

When you left me where it's cold
But mean your words and I'll come home
Don't you say things to say things
You know that isn't how we grow old
We're living fast this love in slow mo'
I'll take the lead this time just hold on
Don't you say things to say things
You know that isn't how we grow old, yeah

Ah-ah-ah-ah I-I-I, yeah
(But I'm talking to you though)
Ah-ah-ah-ah I-I-I, yeah

(But I'm talking to you though)...

When you left me where it's cold
But mean your words and I'll come home
Don't you say things to say things
You know that isn't how we grow old
We're living fast this love in slow mo'
I'll take the lead this time just hold on
Don't you say things to say things
You know that isn't how we grow old, yeah

Ah-ah-ah-ah I-I-I, yeah

(But I'm talking to you though)
Ah-ah-ah-ah I-I-I, yeah
