Yxng Bane

So when can we get the old Ynxg Bane?
We like that you had a good year last year, but what have you go to say to t
he people that say that you changed?

I put designer on her feet
Cause she was lovin' me better
Stringin' me to bullshit rumors
I could not get it tighter
I adjusted, I adapted
Came out on top, that's facts
When they caged in 408, I boxed on his track
Kept it real we stood up still
We never trip 'bout no tings
When the block needed some goals
You tell me who bought sticks
My dad was a 4 star, mom weren't worker
So she claimed benefits
We've had some paper, got some paper
Now we finesse legit
We talkin' Japanese
Now, we talkin' Gwoponese
My young boys from Savage 3
Never in no Twitter beef
I told my you boy keep composure
Keep your skin hard and thick
He couldn't listen, didn't listen
Now he rests from the pen
She my diva, she my Barbie
I can be Ken
Wanna know the drip
Follow and you can check my gram then
Drip sea life, use a fish tank
Yours is pretend
Bitch I got brothers, who the told you I need friends

Don't
Act like you can't see this a big wave
Tried to get rid of me but I stayed
Actin' on set but I do not play
Busy tryna make sure that I stay paid
Do the maths, maths woo
I go wherever that money at
Do the maths
I go wherever that money at

They were cool but it got heated
I had to hide with all my demons
Face em all I'm never scared
Wolf we've gotta now he's here
MJ how I fucking Beat It
Amiri jeans it ain't no secret
Billie Jean is not my love
Put my sisters in Moncler, yeah
If I took you out to a chicken shop
Would you still love me though? Yeah
If I don't still [?] and scuffle a bit
Would you still love me though? Yeah

That's why you get new Celine
I used to invest in weed
And don't ask for profit please
Tell me I ain't got my peeps
We come through chase one beam
My T-shirt WG
And I keep my mom on fleek
Make you change with all these Ps
Can't let these Ps change me
I'm a project boy you see
I'm a project boy you see
God's Plan, God's Plan I preach
Howl...
Chii chii chii
