You got me eyein' up your body, tryna get up in your space

I wanna know-ooh woah, what your name is?  
Who you left and came with?  
I wanna know-ooh woah, what your name is?  
Who you came with?

Call me on the late night, late night  
Make me want it all night, baby all night  
Right before our good night, sleep tight, yeah yeah  
Make me wanna pull up on a late night  
Come and give me me time, baby FaceTime  
Right before our good night, sleep tight, yeah yeah

You know you looking like you got something and that something's for me  
Tell me who you give that cake cake to babe if it isn't me?  
I could give all of me, if you came home to me  
You shouldn't want to sleep, ooh yeah

Make me want it all night, baby all night  
Right before our good night, sleep tight, yeah yeah
