You were with your friends posted in the club
I was there by chance n looking for love
Armour on your heart we don't use a glove
Told me boy you better finish if your starting something
For every chance I get you ain't giving up
For every human being there's another one
For me but minus three cos you are the one
Told me that you're smart with money so don't play dumb

Yeah yeah

She asked if I'm leaving I said yeah yeah

I didn't mean it but I said yeah yeah

You cancel every plan we make when I can be moving onto better things

She asked if I'm leaving I said yeah yeah

I didn't mean it but I said yeah yeah

All till now everything's the same, I just got same change and a brand new R
ange

You sent a text and it made me jump

I can't lie too I wanted one

And when you love me your love's like drugs, yeah yeah

Give it to me I can't get enough

Wanna see you in a dress & sun

In a maxi we go maximum, yeah yeah

Tell me what you need, tell me is it me
