

Squeezeface

Yxng Bane

Amen

Okay I'm not with the games
Heard they speakin' on my name
They watching the kid, they're all taking notes
Now watch them all change (reckless)
In the flesh can't be contained (watch this)
We the [?] in the cage
I'm in the Dubai doing [?]
Feds are tryna build a case, I dodged it
Hit up my missus then hit up her mother then she closed the case
We're who these niggas pretend to be
Ask your son I'm who he wanna be?
And I think all these niggas wannabes
Trust I on't even trust in me (nah)
You be [?] if you Wall Street (if you Wall Street)
Lemme just get to this paper, find several ways to kill 'em different
ly
If she ain't fucking make her do the dash
Rev it up we running up the dash
Smart nigga all I wanted was some good head, good head and some dash
Calm down who you tryna scare?
Camera isn't going anywhere
Niggas look bold on camera, I dread it up, when I pull up niggas never here

Shit happens not to me though
So alive, so alive couldn't kill if it was legal
And different city again
We do this again and again

We did this again and again

I stay ahead they stay tellin' tales
I ain't flipping coins, I'm doing flipping well, yeah
They want me to fail, won't take a break
They try to make me fucking break
Wonderful hours at breaking point
I wanna make some records break
Everybody claim to be the best
I don't even wanna claim it rather pull it off then talk about it pushing out my chest

Shit happens not to me though
So alive, so alive couldn't kill if it was legal
And different city again
We do this again and again

We did this again and again
