

I Know

Z-Ro

I know, they only wanna see me down
And I know, why they don't wanna see me now
I know my haters, probably wanna see me beat down
Thanks to my savior, the blessings come so easy now I know

Even though, I'm not where I wanna be
Thank you Lord, cause I'm not where my haters want me to be
At the bottom of the barrel, looking for another way out
I go half everythang respect, I give a fuck what you say now
I got haters off in my mix again
They don't like me, why the fuck they all in my bid'nness then
I remember, all the hateful shit you said and did
Now you mad at a nigga, cause a nigga ain't trying to forget I
don't need ya
I don't even know your number no mo', ain't gotta delete ya
My nigga you ain't no woman, bitch you a creature
This ain't no recording contract, this shit is evil
Had a nigga so broke, I couldn't afford no reefer

I know, they only wanna see me down
And I know, why they don't wanna see me now
I know my haters, probably wanna see me beat down
Thanks to my savior, the blessings come so easy now I know

Damn whoever woulda thought, me and Slim Thugga end up like bro
thers
Whoever woulda thought, me and Trae Tha Truth would hate each o
ther
Whoever woulda thought I go to prison, as many times as I did
Every time I got hot seem like I was lock, suppose to be on tou
r but I was doing a bid
Let's talk about tears, I done shed so many
Dreaming about dollars, didn't have no pennies
I needed help, they didn't give a nigga any
I wanted some eggs, I just wanted to go to Denny's
I was on my knees so much, dear Lord I need your touch
Just wanted a little sunshine and a little money, didn't know t
hat it would be so much
I'm singing thank you Lord, that's all I got to say
Before I eat before I sleep, before I do anything bro I got to
pray
I use to live outside, these days you should see this big ass p
lace I got to stay
I use to rap for free but now I rap for fees, you fucking right
you got to pay
And that's what it's gon' be
Get the fuck out my face, with all of that remember me
Go 'head and fill up all my pockets, I remember when you niggaz

wasn't feeling me
Told everybody I would not make it, now that I made it you act
like you kin to me
I say no when you ask me for money, you wanna assassinate me li
ke a Kennedy...
