

I Ain't Worried About It

Zac Brown Band

People keep trying to tell me
How to live and I'm just
Over here, runnin' out of fucks to give
I ain't worried about it
I ain't worried about it

Your TV's lying 'cause the
World ain't on fire and the
Only thing burning gets me
Higher, higher, higher
I ain't worried about it
I ain't worried about it

Ooh, this life is really whatever you make it
There's so much good in the world for the taking, yeah
Just take a look at the sky up above
All that matters is love, love, love, love, love

Everyone's gunning for that
Milk and honey and
Some folks are so broke
All they got is money
I ain't worried about it
I ain't worried about it

Ooh, this life is really whatever you make it
There's so much good in the world for the taking, ya
Just take a look at the sky up above
All that matters is love, love, love, love, love

I ain't worried about it
Worried about it
Nothing brings me down
Nothing to me
Two feet off the ground

It's been so good to be here
With all our people and the
Show is ending, but the party never ends
But I'ma see you all again

So don't you worry about it
No, I ain't worried about it, yeah

This life is really whatever you make it
There's so much good in the world for the taking, yeah
Just take a look at the sky up above
All that matters is love, love, love, love, love

Let me hear you say it
I ain't worried about it (I ain't worried about it)
I ain't worried about it
Let me hear you say it
I ain't worried about it (I ain't worried about it)
I ain't worried about it
