

Believe

Zacari

Don't be so quick to judge me
If I haven't yet, trust I'll make you believe
If you open up and see
Everything's not what it seems

I don't get tired
Opps don't sleep, so I can't sleep either
I don't get tired
Opps don't sleep, so I can't sleep
Shades on 'cause I'm too piped up
Trying not to get too excited, oh
Dark liquor gets me too fired up, yeah
It's probably time I get up out of here

Drive it, drive it like it's stolen
Hot-headed, I feel like Ghost Rider
I could write it, I don't need ghost writer
Ghost riding the whip, I'm E-40
Stack enormous, yeah, I can't even fold it
I am beyond blessed, I am anointed
I am beyond stressed, I'm annoyed
Dealing with these people I been tryin to avoid

Don't be so quick to judge me
Don't be so quick to judge me
Don't be so quick to judge me
If I haven't yet, trust I'll make you believe

If you open up and see
Everything's not what it seems

Don't act like you nonchalant (Nonchalant, nonchalant, nonchalant)
Why act so unnatural?
Day and night, I always gripe, I always fight my mind with you
Most the time, I'm never fine just fucking you, touching you, loving
Zacari, naturally, I want you to Cash App me
Actually I want you to eat me like I'm a daiquiri
Factually, I speak the facts
And I speak cash, must be D'usse, must be the ass
Could the first time, could be the last

Don't be so quick to judge me
If I haven't yet, trust I'll make you believe
If you open up and see
Everything's not what it seems

The class, the limits, overspend it, my pussy weapon
That pussy badder than felons
Crack it, bend it, class, the limit, he get it clapping
He spending way over taxes
Crack it, bend it, class, the limit, he get it clapping
He spending way over taxes
Ooh, he get it clappin'
He get it clappin'

He get it clap- (Clap)
He get it clap- (She make it clap for me)

He get it clap- (Clap)
He get it clap- (She make it clap for me)
Do what you do
Do what you do
Do what you do
Do what you-
