

Baby-baby-baby come to me

Baby come to me, I need relief, I need healing
When you're sexting me, I'm a believer, believe me
Come and set me free, I'll be your shoulder to cry on
When you blessing me, I get belief there's a God
Baby come to me, I need relief, I need healing
When you're sexting me, I'm a believer, believe me
Come and set me free, I'll be your shoulder to cry on
When you blessing me, I get belief there's a God

I don't know how many bags that I spent on that ass
But I'll spend that again for you
I don't know how many times that I switched up the plans
But you still stuck around with me

Baby come to me, I need relief, I need healing
When you're sexting me, I'm a believer, believe me
Come and set me free, I'll be your shoulder to cry on
When you blessing me, I get belief there's a God
Baby come to me, I need relief, I need healing
When you're sexting me, I'm a believer, believe me
Come and set me free, I'll be your shoulder to cry on
When you blessing me, I get belief there's a God

Baby come to me, I need relief, I need healing
When you're sexting me, I'm a believer, believe me
Come and set me free, I'll be your shoulder to cry on
When you blessing me, I get belief there's a God

I don't know how many bags that I spent on that ass
But I'll spend that again for you
I don't know how many times that I switched up the plans
But you still stuck around with me
I don't know what I would have if I didn't have a love
Life just wouldn't be enough for me
I don't know what I would have if you held on the grudge
But I swear, I got it bad for you
