

Destiny

Zacari

Gettin' to the money
Gettin' to the money
You know
That's all I do now
Tryna spend it on you, though
You know
Gotta keep two phones
They ringin' off the hook now
You know
Gettin' to the money
All through the morning

You still love me
I know you still love me
You still want me
You still want me
You know
If I'm being real now
(I) Don't know where we
Went so wrong now
Shit still haunts me

You know
Know how it goes
I promise your time
Your time will come
Yeah

You will always be a part of me
It was meant to be, you're meant for me
You will always be a part of me
It was destiny, meant to be

Do you still keep me in your prayers and memories?
You don't gotta tell me
I could feel your blessings
I know it ain't easy
I, I wish it was easy
Like there's a hole in my heart now
Something's missing

You know
Know how it goes
I promise your time
Your time will come
Yeah

You will always be a part of me
It was meant to be, you're meant for me
You will always be a part of me
It was destiny, meant to be

If I knew what I know now back then
I coulda saved what we had left
If I knew what I know now back then
I coulda saved what we had left
