

Foggy Windows

Zacari

I know you feel it
I know you sense it when I'm gettin' closer to you
It's electric, how you move, how you move, how you move, oh
Keep your eyes on me girl, keep your eyes on me
Ain't nobody here that deserves your attention
Nobody, but me

I cannot wait to get you in the passenger seat
We roll the windows down and ride ride ride ride
I cannot wait to grab you by the skin of your waist
We fog the windows up and ride ride ride ride

(Listen up!)

Do-do-do, do you know what you do
Do-do-do, when you do you what you do, aye
Oh do it to me, oh do it to me, aye
Do-do-do, do you know what you do
Do-do-do, when you do you what you do
Oh do it to me, oh do it to me, aye

Set apart from all the others
No one below you, no one above ya'
There's nothing like when we're together
Nothin' else exists, nothing else is real
Girl you take me there
A place where a man can never go without you, girl
There's nothing like when we're together
Nothin' else exists, nothing else is real

I cannot wait to get you in the passenger seat
We roll the windows down and ride ride ride ride
I cannot wait to grab you by the skin of your waist
We fog the windows up and ride ride ride ride
