Zacari

(I'm doing just fine, I'm outside)
(Don't need anybody else, anybody, mm)

Warming up the Rolls
Before the party's over
Lights and cameras, pose
There's nothing to control you

I'm really in love, I'm ready now
Time for this
A million times, I'm ready now
Diving, headfirst
I'll be a lonestar, 'til the star bursts

I came alone here
I'm on my own
I belong here
I'm on my own
I never needed anyone or anybody (On my own)
'Cause when I'm alone I could be anybody (I'm on my-)

City on my back, I need a chiropractor
I couldn't text her back, put it in my caption
Make another another song I suppose
Ghosting anybody
Everybody close to me knows, it's one thing about me

I'm barely alive in the city I'm ready to die for this
A million tries, I'm ready now
Diving, headfirst
I'll be a lonestar, 'til the star bursts

I came alone here
I'm on my own
I belong here
I'm on my own
I never needed anyone or anybody (On my own)
'Cause when I'm alone I could be anybody (I'm on my own)
I came alone here
I'm on my own
I belong here
I'm on my own
I never needed anyone or anybody (On my own)
'Cause when I'm alone I could be anybody (I'm on my-)

Yeah, yeah
Sleeping on me, you must be in a coma
Upping the score, I've been putting up numbers
Thousands of nights I sleep (Sleep)
Billions sold
I don't get F.O.M.O
Hundreds of bands I spend in advance
How could I pass when I got a chance?
How could I crash when I'm in my stance?
How could I miss?
I don't get F.O.M.O
Fomo

Fomo

Fomo

I don't get F.O.M.O

I don't get F.O.M.O

Fomo

I don't get F.O.M.O

I don't get F.O.M.O
