

## die 4 you

Zach Templar

I wanna know  
What's on your mind  
Will I find me?  
I wanna know  
In your stories  
Do I find me?

I would die  
For your eyes (I would die for you)  
Can't get you out my mind  
I would lie  
For your eyes (I would die for you)

Cause' I would die for you, girl (you, girl)  
For you, all of me, us two (love)  
I tried but you're never round  
Now we've gone and found  
Two other loves now

I wanna go  
To the past (sweet innocence)  
Never worried  
You never knew  
How I felt  
What we could be

I would die  
For your eyes (I would die for you)  
Can't get you out my mind  
I would lie  
For your eyes (I would die for you)

Cause' I would die for you, girl (girl)  
For you, all of me, us two (love)  
I tried but you're never round  
Now we've gone and found  
Two other fucks now  
(Don't tell her, don't tell her)

Fantasies about your world (your world)  
Driving me crazy I can't be  
The man to give you what you want  
(The man to give you what you want)  
Driving me crazy I can't be  
The one to take you out  
The one you tell your friends about  
The one to share your life with at all
