

Don't give me bullshit I see through the lies  
You said it's easy to run out of time  
Took too much time I wish I would've known  
Maybe I'm better standing all alone

Woke up feeling better now  
Then I saw you lied  
Do you think I'm blind

Less I thought about it the better  
I guess these feelings last forever  
Less I thought about it the better  
I guess these feelings last forever  
Guess these feelings last forever

You don't even care  
Shoot up on the stairs  
You don't even care  
Shoot up on the stairs

Don't give me bullshit I see through the lies  
You said it's easy to run out of time  
Took too much time I wish I would've known  
Maybe I'm better standing all alone

Woke up feeling better now  
Then I saw you lied  
Do you think I'm blind

Less I thought about it the better  
I guess these feelings last forever  
Less I thought about it the better  
I guess these feelings last forever  
Guess these feelings last forever  
Forever

And these demons won't get out my head  
You got yours but mine don't go away  
And these demons won't get out my head

You don't even care  
Shoot up on the stairs  
You don't even care  
Shoot up on the stairs
