

supercar

Zach Templar

In love again
But it took away
I'm not the same
Too much pain in the way
As she would say
Mama said I had changed
I felt that inside to a place I relate

Far gone I knew it wouldn't
Take you so long
The racing cars around my garage
I love you so don't rust out too fast
Cars
Mine burnt out but yours didn't start
The falling clocks around my garage
I love you so don't run out too fast
Too far
She told me I was her supercar
My wheels took off but I'm at the start
I'm walking circles around my garage

Lovesick for tonight
I won't let you hold me tight
You might need to let go now
Hold me close tonight
Because this might be the last time
Don't stay too long
Pulled me back up
Don't stay too long
Hold on to what you got
Phone me
Like why won't you talk to me
Like you used to talk to me
Like you used to before
Hold on to what you got
Next to me the passengers empty
You used to talk to me
Why won't you no more

I love you don't leave too soon
You put my heart on a noose
So don't leave too soon
I broke myself for you
I destroyed all I had for you
So don't leave too soon
