

Forget You

Zach Top

Rolling down this highway just feeling a little low
Wondering how you're doing down in New Mexico
Told myself so many times that I just don't care
But I miss you, and I need you everywhere

I wonder if you're hurtin' near as bad as I am now
And I wonder if you ever wonder how
You'll never find a love just like the one that we once knew
And I wonder if I'll ever forget you

I suppose that you'll move on and find a new love
I suppose that unlike me, you're beyond and above
Wasting your whole life away just crying all the night and day
For a chance you had at happy ever after

I wonder if you're hurtin' near as bad as I am now
And I wonder if you ever wonder how
You'll never find a love just like the one that we once knew
And I wonder if I'll ever forget you

I wonder if you're hurtin' near as bad as I am now
And I wonder if you ever wonder how
You'll never find a love just like the one that we once knew
And I wonder if I'll ever forget you
Oh, I wonder if I'll ever forget you
