

# She Makes

Zach Top

Hey, Lord. I know it's been way too long  
But you know I've never had that much to say  
That don't mean I'm not a thankful man  
I just had to let you know today  
I've always known you've done some mighty fine work  
But, Lord, you outdone yourself when you made her

She makes a Monday feel like Friday night  
She makes the winter feel like spring  
She makes this complicated world make sense  
And she makes this country boy feel like a king

I make her just a little crazy sometimes  
But she knows that's just the way I am  
I make sure she knows that she's the one  
And she makes me a better man

She makes a Monday feel like Friday night  
She makes the winter feel like spring  
She makes this complicated world make sense  
And she makes this country boy feel like a king

Hey, thanks again for all your mighty fine work  
Lord, you outdone yourself when you made her

She makes a Monday feel like Friday night  
She makes the winter feel like spring  
She makes this complicated world make sense  
And she makes this country boy feel like a king  
Yeah, she makes this country boy feel like a king
