

Up There Down Here

Zach Williams

This ol' world is hurting
But it ain't like You don't know
You tell me not to worry
It's all in Your control
But right now, my faith's being tested
And it's got me on my knees
When I look around at all this mess, Lord
It's no doubt what we need

We could use a little up there down here
A little more Your love, It's so clear
We could all use a lot more living
On earth like it is in Heaven
A little more up there down here
A little more up there down here
We could all use a lot more living
On earth like it is in Heaven

Lord, help us love our neighbors
Like we will on streets of gold
Replace all the pride and hatred
Put some peace down in our soul
Erase all the lines of division
Help us shine more like Your son
I ain't asking You to change Your plans
But until Your kingdom comes

We could use a little up there down here
A little more Your love, It's so clear
We could all use a lot more living
On earth like it is in Heaven
A little more up there down here (Oh)
A little more up there down here (Here)
We could all use a lot more living
On earth like it is in Heaven

A little more up there down here
A little more up there down here
We could all use a lot more living
On earth like it is in Heaven

We could use a little up there down here
(A little more up there down here)
A little more of Your love, so clear
(A little more Your love, It's so clear)
We could all use a lot more living
On earth like it is in Heaven

A little more up there down here (Down here)
A little more up there down here (Down here)
We could all use a lot more living (Down here)
On earth like it is in Heaven (Down here)
We could all use a lot more living
On earth like it is in Heaven
