

## menace

Zack Fox

I'm a motherfuckin' menace  
Cold-blooded vicious  
Niggas come out missin' tryna fuck with the villains  
When I hit the scene paparazzi take pictures  
Pockets so deep it break space-time dimensions  
I'm a menace  
Cold-blooded vicious  
Niggas come out missin' tryna fuck with the villains  
When I hit the scene paparazzi take pictures  
Pockets so deep it break space-time dimensions

Hopped out the 'Vette, money on deck  
Me and all my niggas do whatever for a check  
And the city wildin' for the money and respect  
When I'm slidin' in that Hummer, baby mothers rub her neck  
Brand new crib  
Mansion so spacious  
Got more artillery than military bases  
Like I'm in the Matrix all I see is green faces  
Try to pull a caper, I keep AKs adjacent  
And I'm still geeked, my clique deep  
We be in the gentle' throwing dollars every week  
Walkin' out the bank with them hundreds and them fifties  
I feel like a condom, ain't nobody fuckin' with me  
Clique gotta eat, yeah we gotta hustle  
Big body truck spin the block like space shuttles  
I'm a big stepper turn small towns to rubble  
Fuckin' with my brothers get you popped like some bubbles  
Gold grill shinin', Tesla S gliding  
Hit autopilot, gettin' top while reclinin'  
Swervin' outta Casablanca back to Carolina  
Now these diamonds on me blindin' lookin wetter than vaginas

'Cause I'm a menace  
Cold-blooded vicious  
Niggas come out missin' tryna fuck with the villains  
When I hit the scene paparazzi take pictures  
Pockets so deep it break space-time dimensions
