

Calm Me Down

Zack Tabudlo

Kiss me now
All I want from you is just to love me now
I know I'm doing all of these mistakes
You know I can't control it
I need you now
More than ever babe I need you now
Don't give up on me cause I'm like this
Its just a part of me you know it

Just hold my hand and
Just kiss my lips
Hold me tight stop moving
Oh you don't mean it
All of these words
I hate it when you're shouting

Baby let's fix this now
Why the hell are you so damn loud
Shut your precious mouth and kiss me
Look in my eyes and tell me you love me

You're pissed again
I hurt your feelings and you wish I'm dead
I understand but they won't hurt me baby
I will never leave your heart

Oh whenever you get mad
And whenever you're sad
It makes me see how beautiful you are
When you're make up's faded and gone
From crying out all night til dawn
You're beautiful the way you are

Just hold my hand and
Just kiss my lips
Hold me tight stop moving
Oh you don't mean it
All of these words
I hate it when you're shouting

Baby let's fix this now
Why the hell are you so damn loud
Shut your precious mouth and kiss me
Look in my eyes and tell me you love me

Baby just hold my hand
I will never do such a thing again
I'm in love with you oh baby
Look in my eyes and tell me you love me baby

I know I hurt you before
But baby don't close the door
Let me in let's talk about it now
I'll never leave by your side
Weve been here a couple of times
Give me another chance oh baby

Baby let's fix this now
Why the hell are you so damn loud
Shut your precious mouth and kiss me
Look in my eyes and tell me you love me

Baby let's fix this now
Why the hell are you so damn loud
Shut your precious mouth and kiss me
Look in my eyes and tell me you love me

Baby just hold my hand
I will never do such a thing again
I'm in love with you oh baby
Look in my eyes and tell me you love me baby

(I know I hurt you before)
(But baby don't close the door)
(I know I hurt you before)
(But baby don't close the door)

(Let me in let's talk about it now)
(I'll never leave by your side)
(We've been here a couple of times)
(Give me another chance oh baby)
