

# High

Zack Tabudlo

Take me to your world  
Look me in the eyes  
You can do anything to me  
Anything that you desire

I want you to hurt me so bad  
I want to see myself bleed  
I want you to feel the heat  
My hearts raising on beat

Take me into your skies  
Show me your paradise  
I know you wouldn't let me fall  
While I'm on a high

Where's the get away car  
Get me out of this mess  
Put me into your world  
Baby I know you'll heal my curse

Oh I've never been loved  
Like the one you give  
And baby you make me lose myself  
You use your spells on me

Take me into your skies  
Show me your paradise  
I know you wouldn't let me fall  
While I'm on a high

Baby I am on a high  
Dance with me through the night  
Lose yourself with the groove  
And let me show you how I do mine  
Baby I am on a high  
Dance with me through the night  
Lose yourself with the groove  
And let me show you how I do mine

Take me into your skies  
Show me your paradise  
I know you wouldn't let me fall  
While I'm on a high

Baby I am on a high  
Dance with me through the night  
Lose yourself with the groove  
And let me show you how I do mine  
Baby I am on a high  
Dance with me through the night  
Lose yourself with the groove  
And let me show you how I do mine
