

2 HAND TOUCH

Zack Villere

You eat your watermelon with a spoon
Right out the rind like it's a
Bowl of soup
Soup freaks me out
But I like you
I like watermelon too
So that's cool

Kiss me
I'm a little tipsy
From that drink you gave me
What's that you're saying?
You're nestling up in my neck
I'll kiss you first, what the heck

I wanna dance
With somebody
You're that body
When you hold me
Hold me softly
You push up on me
Then push off of me
Twist around
I see the print from your wallet

We slow dance
You're so mad
You're falling in love but you don't wanna be loved
Well I guess that makes 2 of us
Guess that makes 2 of us
Guess that makes 2 of us

Easy like 2 hand touch
If your car breaks down come run with us yeaaa
It's just like 2 hand touch
You take your hand my hand come flirt with us

You grab my arm to pull me off of the floor
(Do you wanna feel the heat?)
My lonely heart you make it melt like a s'more

Listenin' thru cracks in the door
They're playing that song that you like
How's it go?
Oh that's right

I wanna dance
With somebody
You're that body
Not a clone or carbon copy
Show it off a bit
Poppin' lockin' it
We snap a pic
I'll put it into my locket

You go there
I'll follow

I'm falling in love
But I was looking for fun

But you didn't want any love
Love
But you don't want any
