

# DUBBLE BUBBLE

Zack Villere

Dubble Bubble flavored lip gloss  
Lip smackin', law of attraction  
At the mall I got vertigo  
Painting pinky toes  
And I saw you dancing  
Y'all were hand in hand and  
It's not candid camera  
But I was feeling handsome  
You sure did screw my plans up  
I thought that I'd call ya  
To ask a simple question  
Are you still my girlfriend?  
I think I know the answer

You were my love, I loved you so  
So what, I love you still  
It's just how I feel

I went to sleep on my right side  
Can you feel it?  
Did you have fun tonight?  
It's what I'm feeling inside  
Right side, on my right side  
On my right side  
You left me upside down

Outside  
Could you feel it?  
Did you have fun tonight?  
It's what I'm feeling inside  
Right side, on my right side  
Right side

But I'm gonna call you anyway  
Cuz that boy doesn't know anything  
I could beat him up with my bare hands  
Behind my back I'm just teasing

I'm gonna call you anyway  
Cuz that boy doesn't know anything  
I could beat him up with both hands  
Behind my back I'm just teasing

If you call I'll come over right now, speed it up  
Don't you go breaking my heart til sundown (I'm just teasing)  
If I call you'll come over right now, speed it up  
And sneak in thru the window if you're locked out

I went to sleep on my right side  
Can you feel it?  
Did you have fun tonight?  
It's what I'm feeling inside  
Right side, on my right side  
On my right side  
You left me upside down

Outside

Could you feel it?  
Did you have fun tonight?  
It's what I'm feeling inside  
Right side, on my right side  
Right side

If you call I'll come over right now, speed it up  
Don't you go breaking my heart til sundown  
If I call you'll come over right now, speed it up  
And sneak in thru the window if you're locked out

If you call I'll come over right now, speed it up  
Don't you go breaking my heart til sundown  
If I call you'll come over right now, speed it up  
I wouldn't miss a moment with you like that  
(You left me upside down)

I went to sleep on my right side  
Can you feel it?  
Did you have fun tonight?  
It's what I'm feeling inside  
Right side, on my right side  
On my right side  
You left me upside down

Outside  
Could you feel it?  
Did you have fun tonight?  
It's what I'm feeling inside  
Right side, on my right side  
Right side

I went to sleep on my right side  
Are you free Sunday night?  
Here's what I'm feeling inside  
Don't sacrifice what you're feeling inside  
(On my right, I went to sleep on my right side)
