

# Gravity Falls

Zack Villere

One day you'll have to look and see  
When all is said and done and fading  
No one could rock a style like me  
You tried I bet it drives you crazy

Back then, I was so wild and free  
The wind beneath my wings betrayed me  
She burned me like an old CD  
I'm floating in the car  
(I'll show you what you are)

Stop looking for the abyss  
Stop looking for the abyss  
Stop looking for the abyss  
There's still some beauty in this

One day you'll have to look and see  
Your fear, your sense of hesitation  
As obvious as it might be  
It never should've kept you waiting  
Her legs across the whole backseat  
My heart was in a zillion places  
She burned me like an old CD  
I'm floating in the car  
(I'll show you what you are)

Now all the ladies in the place  
With all that style and so much grace  
Come let your hair down to your waist  
And let your worries wash away

Stop looking for the abyss  
Stop looking for the abyss  
Stop looking for the abyss  
There's still some beauty in this

(Over and over)  
Stop looking for the abyss  
(Over)  
Stop looking for the abyss  
(Over and over)  
Stop looking for the abyss  
(Over)  
There's still some beauty in this

Stop looking for the abyss  
Stop looking for the abyss  
Stop looking for the abyss
