

Snoopy

Zack Villere

Ah ooh ah

Need it right back cause I'm finally doing something
I'm not positive but I can finally say that something's alright
Running it right back cause I've finally really made it
Sometimes life is so up and down but I always try to see the other side
Running it right back cause I've finally really made it
Gonna need it right back cause I can finally really say I'm alright
Running it right back cause I can finally really say that I'm alright
I'm going right back cause I can finally really say

What would you do if I made this for you?
