

## Away

Zahara

I travel the seas and waters  
Trying to find my redemption song  
And I sit to ponder  
The little voice inside my head say  
I can't face it anymore  
I travel the seas and waters  
Trying to find my redemption song  
And I sit to ponder  
The little voice inside my head say  
I can't face it anymore

I gotta go away away away  
I gotta go away away away  
I'm going away away away  
I'm going away away away

I climb the hills and the mountains  
Trying to find my greener pasture  
And I sit to ponder  
The little voice inside my head say  
I can't face it anymore  
I climb the hills and the mountains  
Trying to find my greener pasture  
And I sit to ponder  
The little voice inside my head say  
I can't face it anymore

I'm going away away away...

I gotta go away away away...
